Applicants' remarks and amendments, filed on October 17, 2006, have been carefully considered. No claims have been canceled or added; claims 1-58 remain pending in this application.

***Election/Restrictions***

1. Claims 18-58 remain withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to nonelected inventions, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on April 28, 2005.
2. Claims 1-17 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 18-58, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on March 31, 2005, is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the

Art Unit: 1755

provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

### ***Withdrawn Rejections***

The 103(a) rejection of claims 1-17 as being unpatentable over Richeson et al. (WO 02/16681) or Lin et al. (WO 02/16480), stated in the previous Office Action, has been withdrawn in view of Applicants' amendments and persuasive arguments traversing this rejection.

### ***Allowable Subject Matter***

3. Claims 1-58 are allowed.

### ***Reasons for Allowance***

4. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or suggest the claimed catalyst support comprising the result of the combination of a support comprising hydroxyl groups, a capping agent comprising a boron-containing Lewis acid, and an ionic activator, wherein at least some of the capping agent does not form a support-bound activator.

The prior art, while teaching boron-containing Lewis acids, discloses such acids that form a support bound activator.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
